Allowable Subject Matter

6. Claims 6-8, 10, 15-17, 20, 23-28, and 32 are allowed.

Art Unit: 2836

The following is an examiner's statement of reasons for allowance:

7. Independent Claims 6 and 15 allowable because none of the prior art of record disclose an electrical extension cord with a fault circuit interrupter for detecting leakage current through shield conductor further comprising a switch located in the receptacle or the plug for testing the integrity of the extension cord in combination with the other claim limitations.
8. Independent Claim 10 is allowable because none of the prior art of record disclose an electrical extension cord with a fault circuit interrupter, wherein the interrupter electrically disconnects the receptacle from the plug if a shield become discontinuous in combination with the other claim limitations.
9. Independent Claim 20 is allowable because none of the prior art of record disclose an electrical extension cord wherein impedance sensing means operate fault circuit interrupter upon detection of impedance between the shield and neutral conductors is less than predetermined value in combination with the other claim limitations.
10. Independent Claim 23 is allowable because none of the prior art of record disclose an electrical extension cord wherein impedance sensing means operate fault circuit interrupter upon detection of impedance between the shield and a ground conductor

Art Unit: 2836

is less than predetermined value in combination with the other claim limitations.

11. Independent Claim 26 is allowable because none of the prior art of record disclose an electrical extension cord wherein tripping means operate fault circuit interrupter upon opening the shield conductor in combination with the other claim limitations.

12. Independent Claim 32 is because none of the prior art of record disclose electrical extension cord wherein leakage current collected by the shield enables operation of the fault circuit interrupter to electrically disconnect the receptacle from the plug during either the negative or positive half cycle of an AC signal of the phase conductor in combination with the other claim limitations.

13. Claims 7-8, 10, 16-17, 24-25, 17-28 and 32 are dependent on allowable Claims and therefore allowable.

Comments to reasons for allowance

14. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
